Magnum Venus Products has been delivering ground-breaking innovation for over 70 years in adhesives and composites.

▶ **MVPind.com**

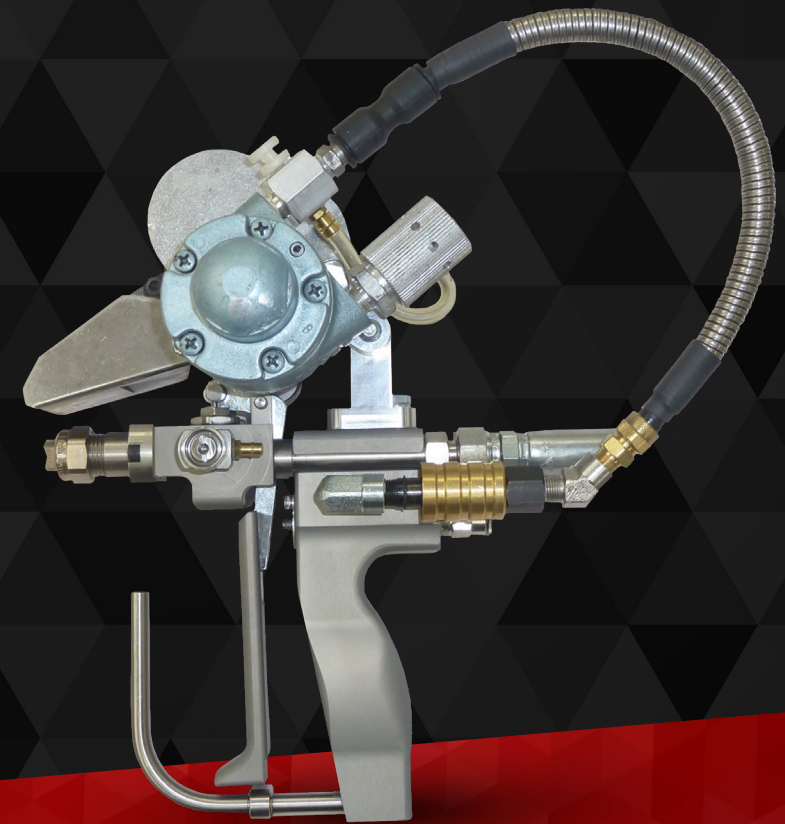

▶ **Better price. Better reliability. Better gun.**

▶ The leading manufacturer of Composites application equipment.

▶ Performance-enhancing **FEATURES**

- ▶ Advanced Valve Technology (Dynamic Discharge)
- ▶ Rapid Access Design (RAD)
- ▶ Advanced precision pattern control
- ▶ AirCat mono-valve
- ▶ Applied fulcrum force to reduce operator fatigue
- ▶ Lightweight design
- ▶ Limited part count

INNOVATION WITH PURPOSE

- ▶ Since 1939, Magnum Venus Products has been applying the latest technologies to provide industry leading tools that make your process and products better.

We are never satisfied with the status quo. We challenge the norm. And we believe "better" can always be made possible. From advanced valve technology to limiting the number of parts, Talon Internal and External Mix Guns are some of the many products we have manufactured to be best in their category.

▶ Count on the Talon Gun Series

Engineered to improve your bottom line and provide peace of mind

- ▶ Long-lasting, durable quality
- ▶ Significantly fewer wear points
- ▶ Improved dependability means fewer delays on the job
- ▶ Ensures consistent, desired flow
- ▶ Lightweight, comfortable feel in your hand for improved productivity

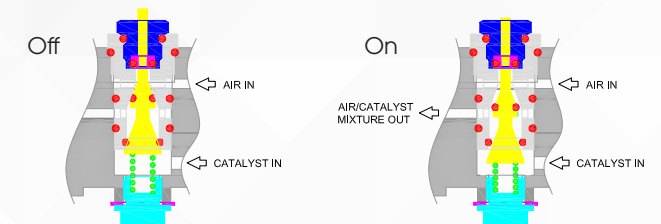

▶ Superior thrust valve and Superior AirCat mono-valve design

- ▶ High-performance ceramic ball
- ▶ Floating ball provides constantly changing wear surface
- ▶ Carbide rod
- ▶ Upper seal and rod exposed to lower pressure
- ▶ Easy removal of entire cartridge

▶ Available in the following configurations

- ▶ Internal or External Mix
- ▶ Patented, Non-atomized Fluid Impingement (FIT)
- ▶ Chopper
